THE CELEBRATED IMITATION GOLD

IN INTING WATCHES.

THE COLLINS OF THE COLLINS METAL

Our superior Oroids Watches only been recently imitated, and worthless ones said represented as our watches, we hereby caution the public against them and give notice that we are in no way responsible for these bogus concerns and only those purchasing directly from us can secure a genuine watch for our manufacture. We have recently greatly improved our oroide in appearance and durability, and, to project the public from impositions hereafter, have named it the "Collins Metal," and we give notice that any one making use of this name will be prosecuted to the extent of the law. This metal has all the brilliancy and durability of gold and cannot be distinguished from it by the best judges, retains its color till worn out, and is equal to gold excepting in intrinsic value. All our Gentlemen's Watches are full jewelled patent levers; those for ladies an improved escapement, better than a lever for a small watch, all in hunting caseg and fully guaranteed by special certificate. The \$15 watches are equal in meatness, style of finish and general appearance and for time to a gold one costing \$150. Those of \$2) are of extra fine finish, and are fully equal to a gold watch costing \$200. Chains of every style, from \$2 to \$5. Also Jewelry of the Collins metal in every style.
